SUMMARY

Computer Science undergraduate graduating in 2027, with project experience in Python, AI applications and automation. Experience spans STEM mentoring, student innovation leadership, and prototypes for job discovery and Linux incident management.

EDUCATION

Bachelor of Technology in Computer Science | Expected May 2027

Jagran Lakecity University, Bhopal | Aug 2023 - May 2027

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript

AI and ML: Machine Learning, Generative AI, LLM API Integration, Semantic Embeddings, AI Automation

Frameworks and Tools: Django, FastAPI, React, PostgreSQL, Git, Docker

Additional Skills: Motion Design, STEM Mentoring, Technical Documentation

PROJECTS

NextStep AI | AI Job Discovery and Career Preparation

- Developed a Django REST API and React application for job discovery, saved-job tracking, and application management.
- Implemented a ranking module using skill overlap and semantic similarity; integrated Groq-powered resume analysis, cover-letter drafting, and interview preparation tools.

SentinelID | Linux Incident Management Prototype

- Developed Python and FastAPI services for Linux telemetry collection, rule-based and anomaly detection, and incident review through a React dashboard.
- Implemented constrained recovery workflows with typed action validation, approval controls, audit records, and a separate SSH executor.

EXPERIENCE

Education Mentor | TeachMyRobot | Freelance

Remote | Jan 2025 - Sep 2025

- Mentored school students on STEM projects involving IoT, artificial intelligence, and robotics; guided project planning, prototyping, and troubleshooting.
- Developed object-detection and face-recognition learning kits using ESP32-CAM and TensorFlow, and a gesture-controlled robot using Arduino/ESP32.
- Supported hands-on workshops and learning content; coordinated with school faculty to align activities with curriculum and competition requirements.

Robotics Trainer | The Stem Innovation

Ahmedabad, Gujarat | Jan 2025 - Apr 2025

- Delivered robotics, electronics, and programming lessons for students aged 10-17; guided Arduino and Tinkercad projects and supported prototype troubleshooting.

LEADERSHIP

Research and Innovation Head | Jun 2024 - Jun 2026

Industry and Entrepreneurship Club, Jagran Lakecity University | Bhopal

- Led research and ideation for student startup concepts; mentored peers on prototypes and pitch decks and supported workshops with faculty and industry input.
